PROFESSIONAL SUMMARY

MERN Stack Developer who builds and ships full-stack applications, not just demos. Delivered **ShopWave**, a production e-commerce platform with Stripe payments, JWT authentication, and role-based access control, and a **Real-time chat application** built with Socket.io and persistent MongoDB storage both are deployed. Strong React and Node.js fundamentals, clean MVC architecture, and the drive to contribute from day one.

TECHNICAL SKILLS

React.js, JavaScript (ES6+), Node.js, Express.js, MongoDB, Mongoose, REST API Development, JWT Authentication, Socket.io, Tailwind CSS, Bootstrap, Git, GitHub, Postman, MVC Architecture, Responsive Design

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, Cross-Browser Compatibility, Mobile-First Development
- Backend: Node.js, Express.js, RESTful API Development, API Integration, Socket.io, JWT Authentication, MVC Architecture
- Database: MongoDB, Mongoose ODM, Data Modeling, Data Validation, File Storage with Multer
- DevTools: Git, GitHub, Postman, API Testing & Debugging, Version Control
- Languages: JavaScript (Primary), Python, C++

EXPERIENCE

Full-Stack Developer Intern — Enigmatix, Bahawalpur, Pakistan

Feb 2025 – Jun 2025

- Contributed to full-stack web development projects using the MERN stack within a professional team environment, working across the full feature lifecycle from planning to deployment.
- Developed and maintained RESTful APIs with Node.js and Express.js, integrating them with React.js frontends to deliver functional, tested features.
- Collaborated on codebase improvements, bug fixes, and feature development across a 6-month internship tenure, participating in code reviews and version control workflows using Git.
- Gained hands-on experience with agile team workflows, debugging production issues, and writing maintainable, scalable code.

PROJECTS

ShopWave — Full-Stack E-Commerce Platform

Self-Initiated, 2025

React.js · Node.js · Express.js · MongoDB · JWT · Stripe · Multer · Tailwind CSS

- Engineered 20+ secured REST API endpoints with JWT middleware and role-based access control (RBAC), covering authentication, product CRUD, order processing, and admin controls.
- Integrated Stripe webhook-based payment processing and Multer file uploads with server-side validation and persistent MongoDB storage.
- Built a fully responsive React frontend across 10+ views including dynamic cart, order tracking, user profiles, and a real-time admin dashboard.

Real-Time Chat Application — Final Year Project

2025

React.js · Node.js · Express.js · MongoDB · Socket.io · Zustand · DaisyUI

- Architected a real-time messaging system with Socket.io supporting one-to-one and group conversations with persistent MongoDB storage.
- Implemented Zustand state management and RESTful auth APIs with a responsive React UI, delivering instant bidirectional updates across concurrent sessions.

EDUCATION

Bachelor of Science — Information Technology

Feb 2022 – Feb 2026

The Islamia University of Bahawalpur, Pakistan
